Program code: ICA30111
Location: Chadstone campus
Program length: 2 years part time
Timetable: Wednesdays, 1.30pm - 5.30pm

Overview
The qualification provides skills and knowledge allowing you to be competent in a wide range of general information and communications technology (ICT) technical functions. After successfully completing this qualification, you may be able to be employed as an information technology support worker. Jobs are available across a wide range of ICT areas, including technical support, network administration, software applications and digital media technologies.

Qualification and recognition
This VET program contributes to your VCE or VCAL. For more information on credit arrangements please visit the website or contact your VET in Schools Coordinator.

Pathway and further study opportunities
On completion of the program, you may further your education in a range of IT programs.

This program is suitable for those who are looking for entry level positions such as level 1 helpdesk and PC support roles as well as those who have an interest in developing specialist IT skills through further education.
