Seminars 2010

Holmesglen will be running an additional two seminars in 2010. March, Holmesglen will be running an international seminar series while others were involved in the festival’s World’s Longest Lunch.

As part of the MasterClass series, students worked in the busy kitchens of The Langham Melbourne. They had the unique opportunity to assist guest chefs for the MasterClasses, including Guy Grossi (Grossi Florentino), Peter Gilmore (Quay in Sydney), David Chang (Momofuku in New York City) and many other international chefs.

Other students were excited to be involved in the World’s Longest Lunch at Marysville. With 200 attendees including the Victorian Premier, John Brumby, Minister Tim Holding and Christine Nixon, students participated in both back and front-of-house roles. They were also given the once-in-a-lifetime opportunity to gain valuable work experience, and meet and work with one of the world’s most renowned chefs – Jamie Oliver.

Holmesglen’s Centre for Hospitality, Cookery and Baking offers a 21st century education. The experienced and enthusiastic teachers at the Institute come from white hat restaurants and five star hotels bringing their expertise to the classroom.

The small scale classes mean greater flexibility in course structure and delivery than some larger organisations, creating a friendly working and learning environment.

Holmesglen students are regularly involved in major Melbourne events. The experiences not only inspire them, but gives them valuable training opportunities to gain real life, hands-on experience with leading Australian and international chefs.

Degree programs at Holmesglen

Holmesglen degree programs provide an innovative delivery methodology with a distinct difference over the delivery of degrees at universities. The main advantage of the delivery is the applied nature of teaching with courses structured to include lectures, tutorials, a simulated work environment and an opportunity for practical placement within several of the degrees.

Holmesglen has been delivering a range of innovative degree programs since 2006, with the Institute currently offering nine degree courses.

Current degree courses
Art Industries
- Bachelor of Screen Production - Animation or Live Action

Building & Construction
- Bachelor of Applied Science (Built Environment) and specialisations
  - Bachelor of Building Surveying
  - Bachelor of Construction Management & Economics

Business & Management
- Bachelor of Business (Accounting)
- Bachelor of Business Administration

Health Science & Biotechnology
- Bachelor of Nursing

Human & Community Services
- Associate Degree in Early Childhood Education

New degrees in 2011
- Bachelor of Business (Executive Administration)
- Bachelor of Business (Marketing Management)

International students at Holmesglen

Holmesglen has over 4,000 international students enrolled across its Chadstone, Moonee Ponds and Waverley campuses. These students study a range of courses from diplomas to degrees.

The Institute provides a complete range of support services dedicated to international students including accommodation and welfare services, an international student counsellor, an offering of recreational activities and international offices at all campuses.

The Academic Skills Unit also provides a free language support and study skills assistance service to all international students enrolled in mainstream courses.

Academic skills classes are an integral part of the curriculum in many of the mainstream courses and are designed to assist students with coursework and study skills. In their first year, students attend classes for two hours per week and receive valuable support with:
- assignment preparation, essay and report writing
- research skills
- note taking and summarising skills
- formatting and structuring material
- academic referencing
- study skills
- time management.

In the second year, individual tutorials are provided.

For further information on courses offered to international students please visit www.holmesglen.edu.au/international. The 2010 International Student Prospectus can be downloaded by selecting the course brochures link.
