| **JAWS**      | • is a screen reading technology which allows users to hear whatever is on screen.  
• May be used to read the web, word documents, read and write email, and access spreadsheets | • Available on a limited number of laptops to students who have been trained in the use of JAWS  
• If you are interested in using JAWS, please see a Disability Liaison Officer at Student Services |
| **MAGIC**     | • Enlarges everything that appears on your computer screen from 2x to 16x  
• Magic also has optional speech, which can be used to read out vital information and long documents. | • To find out which Holmesglen TAFE PCs have MAGIC installed, please see a Disability Liaison Officer |
| **WYNN**      | • Text is highlighted in context as it is spoken aloud.  
• Ability to read the internet  
• Word Prediction  
• Built in talking dictionary and thesaurus | • To find out which Holmesglen TAFE PCs have WYNN installed, please see a Disability Liaison Officer |
| **DRAGON**    | • Voice recognition software  
• After an initial training program to the individual’s voice, DRAGON types words as you speak  
• Requires headset with microphone | • Requires a short training period  
• Is available at select computers in the learning commons at each campus and Tafe laptops  
• If you are interested in using DRAGON, please see a Disability Liaison Officer at Student Services |
| **ZOOM TWIX** | • Book-to-speech tool  
• It first scans a single page by photographing it  
• It then magnifies the captured text and wraps the lines on-screen to read the words aloud  
• You are able to scroll-down the text | • To use ZoomTwix, please see a Disability Liaison Officer |
| SARA | • Scans text and then read it aloud in clear speech.  
• SARA automatically stores and remembers the contents of hundreds of scanned pages. | • To use SARA, please see a Disability Liaison Officer |
| BIG KEYS LX KEY BOARD | • BigKeys LX is for adults who want a full-featured keyboard -- but who need large keys in order to locate and operate the keys  
• BigKeys LX includes all special characters found on a standard keyboard, with the exception of the numeric keypad, Scroll Lock, and Pause/Break. | • To use BIGKEYS Keyboard in class with your PC or laptop, please see a Disability Liaison Officer |
| LARGE MOUSE | • tool for users who lack fine motor skills which a regular mouse requires.  
• Just a touch on the large yellow ball allows user to move around the computer screen  
• A tap on one of the blue buttons pulls out various other computer functions | • To use Large Mouse with your PC or laptop, please see a Disability Liaison Officer |
| READ & WRITE GOLD | • Provides literacy support in any Windows application.  
• Appears as its own toolbar at the top of the screen  
• Text is highlighted on the page as it is spoken aloud  
• Ability to read the internet out aloud  
• Word Prediction function | • Available on the NOVELL GROUPWISE login screen on every computer at Holmesglen TAFE. HOW TO ACCESS THE PROGRAM:  
• Under Hit-Tree -> click on “All Users” -> launch the program by double clicking |
