Program Code: 22216VIC
Location: Chadstone campus
Program length: 2 years part time

Overview
The Certificate II in Building and Construction is designed to enhance carpentry and/or associated building trades apprenticeship prospects. During the program you will gain experience in using hand and power tools, and learn a wide range of carpentry skills including how to install windows and doors, wall framing, interior fixing and roofing.

This is a two year program which opens up employment opportunities in the building construction and building design industries by providing skills and knowledge required by the carpentry and building trades.

Qualification and recognition
This VET program contributes to your VCE or VCAL. For more information on credit arrangements please visit the website or contact your VET in Schools Coordinator.

Pathway and further study opportunities
With additional units, graduates of the Certificate II in VETiS Building and Construction (Carpentry) will be eligible for the apprenticeship certificate (Certificate III level). Successfully completing your training as an apprentice will need you to have a contract with an employer before continuing your training as an apprentice.

This program is suitable if you have an interest in carpentry, joinery, stair building, shop fitting and building and construction.
