Overview
If you love fashion, working with fabric and design and would like to progress to a career in the fashion industry, this could be the perfect starting point for you. This program introduces you to all facets of the fashion design and production process.

Through the design process, you will learn how to create fashion illustrations, both by hand and digitally, put together colour and fabric proposals, draft patterns and sew garments. You will learn all of these skills in Holmesglen’s purpose built studios, industry standard facilities and be taught by industry professionals.

Qualification and recognition
This VET program contributes to your VCE or VCAL. For more information on credit arrangements please visit the website or contact your VET in Schools Coordinator.

Pathway and further study opportunities
The VCE VET Applied Fashion Design and Technology program provides an introductory overview of fashion design which will provide you with a folio of fashion design work suitable for use at interviews for a variety of fashion design programs from certificate, through to diploma and degree level. You may be able to claim credit transfer for some units, when you apply for further study in the VET sector.

This program is suitable if you are interested in further study and a career in the fashion design field, in a variety of different areas. These might include, fashion design, pattern making and drafting, production, marketing or styling.
