New IT Degree

Commencing February 2011, Holmesglen will be offering a Bachelor of IT for the first time.

Bachelor of Information Technology (Programmer/Analyst)
This course is structured to equip students with a thorough understanding of key IT business functions, including programming, database management, and analysis and design development. The Degree is built around SAP enterprise software which is widely used in large enterprises throughout Australia and internationally. A key feature of the Degree is an industry placement within a SAP environment which will enable students to integrate multiple disciplines during the second semester of the third year.

Career opportunities
- Programmer
- Training analyst
- SAP business analyst
- SAP developer

Selection criteria (Normal entry)
- Successful completion of VCE
- Selection will be based on ATAR

How to apply
Full-time (February entry): Apply through VTAC
Full-time (July entry): Apply directly to Holmesglen

Course length
Full-time: 3.5 years
Part-time: Study options may be available, depending on enrolments.

Commencement dates
February and July

Location
Chadstone campus

Careers Practitioner Seminar

Thank you to everyone who attended the first Holmesglen Careers Practitioner Seminar for 2010. The guests really enjoyed “speed dating” with representatives from Holmesglen departments and hearing a student perspective from new Student Ambassadors. Guests also learnt all about the diversity of courses and the great industry partnerships which Holmesglen has.

If you missed out on the event, here is some feedback from your peers.

“I possibly learnt more here in a few hours than I have done in the last year to enhance my counselling: well done Holmesglen.”
Kay de Jong, Xavier College

“The day was of great use to me. Thank you Holmesglen.”
Tracey Seach, Mount Erin Secondary College

Date: Tuesday 20 July

Guaranteed entry into Business Degrees

Holmesglen guarantees students who successfully complete a Business Diploma course at the Institute, entry into Holmesglen Business Degrees. Students making the transition receive credits from their Diploma towards the Degree.

The four Business Degrees available include:

**Bachelor of Business (Accounting)**
This practical hands-on Degree was created in response to a shortage of qualified professionals in the accounting field. Developed in consultation with industry, and enjoying accreditation from the CPA (Certified Practicing Accountants), ICAA (Institute of Chartered Accountants in Australia) and NIA (National Institute of Accountants), the course ensures that its graduates are work-ready and can practice as accountants immediately after graduation.

**Bachelor of Business (Executive Administration)**
This broad, practical Business Degree qualifies graduates to be employed in a variety of business and administrative related roles. The Degree was developed in response to demand from industry for highly skilled professionals in business management and administration. Students completing the Degree experience high levels of employment upon graduation, including executive personal assistants in public and private organisations.

**Bachelor of Business (Marketing Management)**
Through practical application of marketing theory and concepts, graduates of this Degree are equipped with a broad based understanding of business and marketing management which is immediately applicable in the workplace. Graduates possess the skills to challenge, question and invigorate their working environment, and enter the marketing management sector with confidence.

**Bachelor of Business Administration**
This Degree equips students with a thorough understanding of specialised business functions, including business management, economics, finance, technology, marketing, business communications, statistics, law and people management. The course prepares students to explore more specialised areas such as accounting, marketing, international business or human resources. The final year includes an applied New Venture Creation project which integrates multiple disciplines and prepares graduates for the workplace.

Benefits of studying a Business Degree at Holmesglen

- **Strong employment outcomes**
- **Flexible pathways**
  With guaranteed entry into Degrees for Diploma graduates and various exit points, students enjoy flexible study options.

- **Individual attention**
  Class sizes are small at Holmesglen to ensure all students receive personal attention and ample access to teachers. Dedicated teaching staff make themselves available to students outside the classroom to assist each student to achieve their best outcomes.

- **Industry relevance and credibility**
  Each of the Degrees were developed with extensive industry input and have industry recognition, ensuring that the curriculum is relevant and meets the standards expected by business sector.

- **Practical application**
  Each of the Degrees is taught in a hands-on, practical fashion and includes practical projects. Assessment items ensure that students are work-ready and can work in their chosen profession immediately upon graduation.

- **Exceptional facilities**
  Over the past two years Holmesglen has refurbished and created new facilities for business students, resulting in modern, well equipped, comfortable facilities exceeding the standard of most other educational providers.
