ARE YOU...
TECH SAVVY?
ATTENTIVE?
A PROBLEM SOLVER?
PRACTICAL?

Then consider a career as a

- Electrician
- Refrigeration mechanic
- Air conditioning mechanic
- Electronics worker
- Electro technician

VET IN SCHOOLS PROGRAM
Certificate II in Integrated Technologies
Formerly known as Electrotechnology (Shared Technology), this program is a pre-vocational electrical program, designed to provide an introduction to the electrical/electronics industries in areas such as airconditioning, electrical, refrigeration or instrumentation. It enables you to develop broad based competencies in a range of electrotechnology fields such as lighting, general power, fire protection and security, robotics, instrumentation, optical data and voice systems, electrical motors and control systems.

This program also teaches you how to make more informed choices in the selection of vocational career paths and gain a recognised credential and credits for further training as an apprentice or trainee in the electrotechnology industry.

During this program, you are required to provide overalls, work boots and clear safety glasses.

Qualification and recognition
This program is a VET in Schools program and is part of your VCE or VCAL program. First year provides two units towards VCE at Units 1 & 2 level or 2 VCAL units. Second year offers a study score for the ATAR if students opt to sit for the examination, two units towards VCE at Units 3 & 4 level or two VCAL units.

Career and further study opportunities
At the completion of this program, you may wish to continue your studies in the Certificate III in Electrotechnology (Electrician).
