Overview  
Coordinating festivals, weddings, conferences, special events or functions requires certain skills. This program aims at providing a real insight and introduction into the events industry and the skills and knowledge required to be successful in this career.

Throughout the program you will learn how to communicate event ideas, gather information, plan and organise activities, work in teams and solve problems. In your first year you will develop and promote a special themed event, put an event proposal together for an ‘in house’ customer and organise an end of year event.

The focus for the second year is to further develop your skills and knowledge of the events industry, by running a larger Holmesglen in house event. This will further develop your skills in meeting management, team building, client liaison and coordinating the event.
