Luxury Internship for Holmesglen Students

Two lucky Holmesglen Diploma of Hospitality Management students have been selected for an exciting internship with the Sheraton Grande Laguna Phuket, Thailand.

Successful students Leigh Shani and Brooke Tagell worked in the hospitality industry before deciding to return to study and are thrilled to have been chosen.

Both are excited to have the opportunity to work in a 5 star resort and are keen to use the experience to learn more about the industry.

Holmesglen Student Wins at Victorian Training Awards

Former Holmesglen student, Michael Hogan, has beaten three other finalists to win the Victorian Vocational Student of the Year category at the 2010 Victorian Training Awards.

The Victorian Training Awards are one of the ways the Victorian Government rewards outstanding achievements and innovations in vocational education and training. The Awards recognise the valuable contribution of apprentices, trainees, students, teachers, employers, training providers and industry in building a world class vocational education and training system in Victoria.

Michael, who studied the Certificate II in Automotive Electrical Technology, has achieved many things at 23 years of age. After completing his Certificate II in Automotive Electrical Technology, Michael started his own automotive accessory business, contracting to various Victorian stores. Michael is also heavily involved with the CFA.

Michael labels himself as a walking advocate for vocational hands on training. So much so that he completed the Certificate IV in Training & Assessment at Holmesglen and is now teaching the same subjects he learned!

In addition, Holmesglen also had a finalist in the Victorian-Voico Student of the Year category. Margaret Martin was shortlisted for her studies at Holmesglen in the Certificate III in Hospitality (Food and Beverage) through her employer Crown Melbourne Limited.

This is the first time such a placement has been organised and the students will be living in the resort while they work. At the conclusion of the two month placement Leigh and Brooke will have more work to do before they complete their Diploma. However they are sure the opportunity will assist them with finding work after graduation.

Study sustainable courses at Holmesglen

Holmesglen is committed to providing educational outcomes which meet the needs of the future, with a range of green courses on offer across many learning areas.

Courses are designed to meet the growing need for an environmentally sustainable approach to the use of our energy resources, within the construction industry, in waste and water management, and sustainable practices in the office, at home and in the garden.

Skills and knowledge are incorporated into courses to enable graduates to work toward a more sustainable workplace and home environment with the aim of contributing to a sustainable future for Australia.

Here are just some of the courses which combine sustainability or renewable energy studies.

- Arts & Design
  - Ceramics
- Building & Construction
  - Retrofitting Homes
- Business & Management
  - Accounting
  - International Business
  - Human Resources Management

Career Hunter

Career Hunter is a new affordable online tool to help equip your students with the specialised skill set they will need to successfully gain employment.

Career Hunter allows students to access topics such as:
- Goal setting
- Job search process
- Resumes
- Application letters
- Job search methods
- Telephone techniques
- Interview techniques
- Networking
- Cold calling
- Behavioural interviews
- Addressing key selection criteria

Career Hunter is an interactive resource which can be distributed to students as a CD or may be hosted on a school’s local server. The 12 month licensing fee of only $550 includes unlimited access and unrestricted use for students, teachers and careers practitioners within your school.

To give you an insight into this resource we have enclosed a sample CD giving you access to the resumes module.
