Starting in February 2011, Holmesglen will be commencing the Diploma of Nursing. The Diploma will replace the current Certificate IV in Nursing in Victoria, in line with other states and territories throughout Australia.

**Course length**
Full-time: 18 months.

**Location**
Moorabbin campus

The Diploma of Nursing provides training for registration as an enrolled nurse. There are 26 units of study in all, delivered over three semesters. Students will be allocated 400 hours of clinical placement at accredited healthcare facilities throughout the study period.

The Diploma of Nursing provides an entry pathway for students to the Bachelor of Nursing, which may be an attractive option for those students who initially do not meet the entry requirements for the Bachelor of Nursing.

**Career opportunities**
Enrolled nurses are employed throughout the health and community sector in hospitals, aged care, rehabilitation, mental health and community facilities.

**Prerequisites**
All applicants will be required to
- complete the application form
- pass an entrance exam administered through VETASSESS
- attend an interview
- be motivated to work in the health care sector.

**How to apply**
Apply directly to Holmesglen.

**Commencement dates**
February and July

**Further information**

VCAL is all about real experiences

Holmesglen Vocational College students received first hand event management experience at the VALA (Victorian Applied Learning Association) conference, Learning on the Edge, which was held at the Rydges Bell City Hotel.

In 2010, the Certificate III in Event Management is being offered to Senior VCAL students for the first time. When the opportunity to help with the VALA conference came up, they jumped at the opportunity.

The students had only had a few weeks of classroom training, as well as a full day of training at the venue, before they were in action. The conference “Learning on the Edge” was well named!

From a 7am start to finally completing the day at about 5pm, all the students were tired but really thrilled with the learning experience. They received excellent feed back from the evaluation reports and had certainly done an excellent job.

Holmesglen Vocational College has limited mid year places for Intermediate and Senior VCAL students.

ICT Awareness Information Session for Careers Practitioners

Australia’s Information and Communications Technology (ICT) sector is one of the most highly developed and cost competitive in the Asia-Pacific region. There is a strong local industry and many international ICT corporations have significant global operations based in Australia.

The Computing & Information Technology (CIT) Department at Holmesglen offers a number of ICT courses across two campuses- Chadstone and Moorabbin. The courses provide students with hands on experiences in broad areas of the ICT service industry.

This information session will provide careers practitioners with useful information about ICT to help guide students in their study and career decisions.

During this information session you will
- learn the benefits of studying ICT
- discover the breadth of courses that the Holmesglen CIT Department offers
- investigate pathways/articulation arrangements
- experience first hand the facilities and resources that are available to Holmesglen CIT students
- learn more about teaching and assessment techniques
- hear about past graduate success stories
- be given the opportunity to speak to teaching staff
- receive a tour of the campus.

Date: June 17 2010
Time: 2.00pm - 3.30pm
Room: Holmesglen, Chadstone campus Corner Warrigal Road and Batesford Road Corporate Suites, Building 8 Dining Room

Bookings are essential by
Wednesday 9 June.

Open Day
Saturday 21 August 2010, 10am - 3pm

Encourage your students to visit Holmesglen’s Open Day.

They will be able to discover course and career options, get involved in hands on activities, explore facilities, talk to current students, meet teachers and attend information sessions.

See full details and a program of activities at www.holmesglen.edu.au/openday
